

Greater Element

[[], [100], [80], [60], [70], [60], [75], [85]]

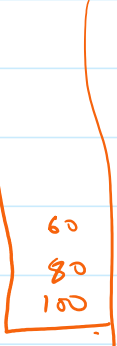

greedy

stack.peek() <= cur
→ pop()

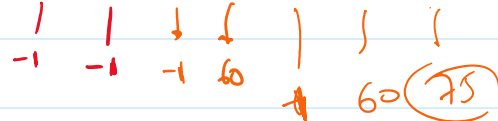

→ Top se chota hai
to pop krta hai
→ k greatest element
hai to nikal

→ stop if smallest hai
to pop krta hai

Smallest Element

[[], [100], [80], [60], [70], [60], [75], [85]]

#

stack.peek() >= cur
